# MANIPAL INSTITUTE OF TECHNOLOGY

MANIPAL

*(A constituent unit of MAHE, Manipal)*

## DEPARTMENT OF CIVIL ENGINEERING

**First Semester B.Tech. (Civil Engineering)**

**End Semester Examination**

**Course: Environmental Studies** **Course Code: CIE 1072**

**Time: 3 Hours** **Date: 30/11/2024** **Max. Marks: 50**

| Q. No. | Questions | Marks | CO /CLO | AHEP4 LO | Blooms Taxonomy level |
|---|---|---|---|---|---|
| **1A** | Describe the ecological and political consequences of inundation of Sunderban | **5** | **1** | 7 | 2 |
| **1B** | Strategic intervention is required to deal with the predicted temperature changes for future. Justify. | **3** | **1** | 7 | 5 |
| **1C** | Describe how National Ambient Air Quality Standards (NAAQS) vary from World Health Organization (WHO) guidelines in combating Air pollution | **2** | **1** | 7 | 2 |
| **2A.** | Explain how energy has molded global politics since Industrial Revolution | **5** | **2** | 7 | 5 |
| **2B.** | Explain any three methods to counter the ill effects of the green revolution | **3** | **2** | 7 | 2 |
| **2C.** | Explain the string of events which culminated in the implementation of green revolution in India | **2** | **2** | 7 | 2 |
| **3A** | Discuss the objectives of National air quality monitoring programme | **5** | **3** | 7 | 2 |
| **3B.** | Discuss the ways by which ill effects of pollutants are reduced once they are released to the environment | **3** | **3** | 7 | 2 |
| **3C.** | Illustrate the methods used to address recyclable and non recyclable plastic waste | **2** | **3** | 7 | 2 |
| **4A.** | Discuss the major acts and reforms which established the foundation of environmental protection or conservation in India between 1970-1990 | **5** | **4** | 7 | 2 |
| **4B.** | With examples explain the role of community participation in protection of environment | **3** | **4** | 7 | 2 |

| | | | | | |
|---|---|---|---|---|---|
| **4C.** | Discuss any four functions of state pollution control board | **2** | **4** | 7 | 2 |
| **5A** | The principal reasons for flooding in India lie in the very nature of its ecological systems. Justify with reasons. | **5** | **5** | 1,7 | 5 |
| **5B** | Extreme positive departures from the normal maximum temperature result in a heat wave during the summer season. Justify | **3** | **5** | 1 | 2 |
| **5C** | Discuss the applications of GIS in disaster management. | **2** | **5** | 1,7 | 2 |
